DETAILED ACTION

1. Claims 19 and 21-27 are pending and claims 1-18 and 20 have been canceled in this communication filed 10/14/04 or in a prior response entered as Response After Non-Final Action.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 19 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. It is unclear what Applicants' are claiming in claim 19 with the claim limitation reciting "an editor to manipulate the checked-out database item, the first program compares the version of the database item in the source code control system with the version of the database item in the database and the editor manipulates the database item as a function of the comparison". Applicants' appear to have left something out in the wording of the claim limitation because as written the claim limitation wording does not make sense. Applicants' are respectfully requested to clarify in the claim language this claim limitation.

Allowable Subject Matter

4. Claim 19 and the depending claims 21-27 will be allowable when the 35 U.S.C. 112 second paragraph is overcome.

Art Unit: 3624

The reasons for the indication of allowable subject matter would be as follows:

Applicants' editor to manipulate the checked-out database item, the first program comparing the version of the database item in the source code control system with the version of the database item in the database and the editor manipulating the database item as a function of the comparison, the prior art fails to anticipate, make obvious, or fairly suggest Applicant's invention.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Pallmann (US 6,094,684) disclosed a program, text, and editing.
